PROFESSIONAL SUMMARY

Student of Systems Analysis and Development (Grad. Dec 2026) seeking an Internship in Software Development or Data Analysis.

Proficient in **JavaScript, PostgreSQL, and Bootstrap**, leveraging my hands-on experience in **Technical Product Validation** and **Process Optimization** (50% productivity increase). Highly adaptable and focused on delivering technical value through programming and problem-solving.

SKILLS AND COMPETENCIES

- **Technical:** JavaScript, HTML5, CSS3, C, PostgreSQL, Git/GitHub, ERP Sankhya, Hardware Testing, UX/UI, Agile Methodologies (Scrum/Kanban).
- **Soft Skills:** Prioritization, Results Focus, Autonomy, Problem Solving.

EDUCATION AND LANGUAGES

Systems Analysis and Development (A.S. degree) | Universidade Positivo *Expected Graduation: December 2026*

- Solid foundation in **Programming Logic and Algorithms,** including practical project web development.
- **English:** Advanced (Self-taught).

PROFESSIONAL EXPERIENCE

Quality Apprentice | Golfleet Tecnologia *June 2024 – Present*

- **Technical Product Validation:** Actively participated in the technical validation of hardware and software, applying rigorous tests to ensure product quality and compliance.
- **Asset Management and Data Traceability:** Managed asset control and records within the ERP Sankhya system and developed an inventory traceability system using Google Sheets.
- **Productivity Optimization:** Responsible for hardware/software validation and asset management (ERP Sankhya), resulting in a **50% increase in testing productivity**.
